
Bowtie Documentation

Release 0.0.3

Jacques Kvam

August 20, 2016

1 Quick Start	3
2 Components	5
2.1 Visuals	5
2.2 Controllers	5
3 Create New Components	7
4 Comparison	9
5 Indices and tables	11

Bowtie helps you visualize your data interactively. No javascript required, you build your dashboard in pure Python. Easy to deploy so you can share results with others.

Quick Start

Components

2.1 Visuals

2.2 Controllers

Create New Components

Comparison

Indices and tables

- `genindex`
- `modindex`
- `search`
